Hi Gary,

FEMA has a National Flood Hazard Layer available from their website. We tend to use the web services they make available, but it's also available for download from their Flood Map Service Center. The link is:

<http://www.fema.gov/national-flood-insurance-program-flood-hazard-mapping/national-flood-hazard-layer-nfhl>

Look under the "Accessing the NFHL" section.

Jeff,

Do you know where a 100-year flood map/shapefile for San Jacinto might be?

Thanks,

Gary Miller

Subject: 100-year floodplain

Hi Gary,

I have searched every web site I know to look, but I cannot find either a 100-year flood inundation map for the San Jacinto River or ARCGIS shapefiles that show the 100-year floodplain. Have you ever seen one of these?

Thanks,

9563111

Earl
